Velvety Belgian chocolate is our sweet specialty!

Welcome to the world, where exquisite taste, aroma, and creamy texture meet masterful flavor expertise. All this is based on clean labels and the finest recipes. We use premium ingredients, including Belgian chocolates, to deliver quality, flavor, and design. Discover the variety of our exquisite chocolates and choose your favorite flavor!

CHOCOLATE VARIETIES:

Milk 33% Cocoa – A warm, brown color with a smooth cocoa texture and caramel notes in the background. This is the most popular chocolate among chefs worldwide. Its exceptional creaminess makes each milk piece melt in your mouth!

Dark 57% Cocoa – With a deep aroma and creamy texture, this chocolate has a rich cocoa flavor with delicate, fruity notes, thanks to the roasting of whole cocoa beans used in its production.

Ruby 47% Ruby Cocoa – Surprising flavor and original ruby hue. Made from red cocoa beans from the Ivory Coast, Brazil, and Ecuador. Not only does it stand out in color, but it also has an intense, fruity flavor with a fresh, tangy note.

Caramel 30% Cocoa Butter – Chocolate with a rich toffee, butter, and cream flavor, enhanced by a touch of salt. Subtle, light amber color with a golden hue invites you to taste this masterful blend of fine ingredients.

Dark 72% Cocoa – A dark dessert chocolate made from the finest Belgian cocoa. It features a very subtle, moderate sweetness characteristic of classic dark chocolate.

White 27% Cocoa Butter – Iconic white chocolate with a balanced flavor and noticeable milk notes. Created for fans of original tastes. Creamy, smooth texture with a milky flavor – subtle, classic sweetness.

Milk with Honey 33% Cocoa – Milk chocolate with a touch of natural honey. A unique flavor combination with milky, caramel, and honey notes.

Sugar-Free Milk 33% Cocoa – The perfect flavor composition, combining the rich taste of chocolate with the richness of cocoa and milk. The texture, color, and pleasure of classic chocolate, but without added sugar!

OUR PACKAGING SOLUTIONS

Sustainable choices.

COMPOSTABLE FOILS – product safety and care for the planet

Foil is an indispensable element of food packaging – but it can also be environmentally friendly. That's why we introduced **100% compostable foils**, which meet strict food safety standards and follow the principles of sustainable development.

Why is it the right choice?

- **Ecology in practice** – made from over 90% renewable resources (including FSC®-certified wood fibers),
- **Compostable** – suitable for both industrial and home composting,
- **Safe for the product** – provides an effective barrier against gases and moisture, keeping sweets fresh and secure,
- **A modern alternative to plastic** – reduces the use of traditional foil by up to 60–70%,
- **Supports your brand image** – shows that your company truly cares for the environment.

Naturally fresh

Products in compostable foil have a shorter shelf life (e.g. candies 12 months vs. 24 months in traditional foil).

This means they are **not artificially preserved with additional chemicals or plastic barriers** – keeping their natural character and further emphasizing your brand's sustainable choice.

By choosing compostable foils, you gain guaranteed product safety and a real contribution to protecting the planet.

BLEND & TELL YOUR AROMA STORY

If blends aren't quite your taste, **take the initiative and create your own tea.**

Premium brands are recognized by their details. These details create **an aura of uniqueness**—sometimes subtle, sometimes bold, but always consistent. Tea can be one of those details. Not a ready-made blend from a catalog, but a **blend designed from scratch** — exclusively for your brand.

The process in our configurator is simple, yet the effect is strategic:
choose your base and three extras from fruits, petals, spices, and other ingredients.

This is how a product that acts as **sensory branding** is created:
it sticks in the memory, builds loyalty, and sets you apart from the competition.
Because clients may forget an advertising slogan. But a taste that becomes your signature will stick in their memory.
